

# MOBILITY CONNECTION

## Mobile Computing Corp. Newsletter

### Empowering the Mobile World

Issue: # 01-11

January 2011

#### Greetings!

Happy 2011 and welcome back! Based on your feedback and individual discussions, it became apparent that some of the services MCC provides were not being properly communicated. With this in mind, I decided to dedicate this newsletter to elaborate on how the MCC team delivers a complete turn-key solution by investing in a strategic partnership ecosystem.

It is through this validated ecosystem that MCC provides you with a "one stop shop". These products and services have been architected to deliver maximum value, reduce your operating costs and support you while you run your business.

### MCC's Services and Capabilities Overview

#### Hardware

Procure, configure, manage, deploy. MCC will take care of all the logistics and services required to provide you with enabled devices, where you need them.

#### Software

MCC has a proprietary suite of Mobile Worker applications (M-LINX) to support you. No need for custom code or to engage multi-vendor activities.

#### Service Center

Tier 1, 2 and 3 support offerings allow you to decide the level of support you need. MCC has a fully staffed 24x7 call center to support your business requirements.

#### Hosting

Cloud, Virtualization, Co-Located, we speak their language. Count on MCC to provide you with options that suit your business needs.

#### Wireless

MCC has aligned with the major wireless carriers in North America to provide you with enhanced services and packages that may not be available directly. These packages can be integrated as part of our offering or provided a la carte.

#### Project Team

MCC has a dedicated team that supports you at every stage. Project Managers, System Engineers and Developers, we have

the ability to provide you immediate live personnel that understands your systems.

The above services are an aggregate of in-house and 3rd party offerings to provide a robust and comprehensive solution.

As always, I am available to discuss any of the above information in more detail.

**Sincerely,**

Mike Macaro  
Director, Business Development  
Mobile Computing Corp.
